

Hello and Congratulations!

Skyline College's Engineering Tech Scholars STEM pathway program received an honorable mention for the 2017-18 Exemplary Program Award that recognizes outstanding community college programs! This is a Board of Governors award, sponsored by the Foundation for California Community Colleges, and awardees are recognized and will receive a plaque at the Board of Governors meeting.

The Program Director of the program is invited to attend the Board meeting to receive the award. The award presentation will be held at the Board of Governors for California Community Colleges meeting on January 16-17, 2018, subject to the Board president's discretion. More information will become available once we confirm meeting times with the Board of Governors. Would you like us to contact the Program Director or would you like to do the honor? Once they are alerted, we will follow up with details about the Board of Governors meeting location and date.

Thank you and again congratulations!
