

Transfer/Career Options
NURSING
2010-2011

In recent years there has been a high student demand for this major. Nursing is the art and science of care for individuals, families and communities in a variety of settings. The discipline of nursing integrates the life, social and behavioral sciences with general education, nursing theory and clinical courses to produce a graduate capable of functioning autonomously as a member of a multidisciplinary team, managing and coordinating personnel, services, resources and data in addition to providing patient care.

CAREER OPTIONS: Nurses deliver care to people in hospitals, extended care facilities, private homes, public health organizations, schools, and in other community settings as Nurse Midwifery, Women's Health Nurse Practitioner, Nurse Generalist, Nurse Anesthetist, Family Nurse Practitioner, Nursing Leadership, Nursing Educators, Nursing Administrators, and Psychiatric/Mental Health Nurse.

Skyline College does not have the Nursing major. However, we offer the preparatory courses that students may take in order to be well-prepared for transfer to any of the four-year campuses listed below, whether public or private, through articulation agreements in www.assist.org. Students may also take these preparatory courses for transfer to our sister campus, College of San Mateo. CSM's Associate in Science Degree in Nursing requirements may be accessed through www.collegeofsanmateo.edu/nursing or see CSM's 2010 Nursing handout in our Transfer Center.

The following four-year campuses offer the B.S. in Nursing: [CSUB](#), [CSUC](#), [CSUCI](#), [CSUDH](#), [CSUEB](#), [CSUFRES](#), [CSUFULL](#), [CSULA](#), [CSULB](#), [CSUN](#), [CSUS](#), [CSUSB](#), [CSUSM](#), [CSUSTAN](#), [HSU](#), [SDSU](#), [SFSU](#), [SJSU](#), [SSU](#); Nursing Registered Nurse B.S. ([CSULB](#)); Nursing Science B.S. ([UCI](#)); Nursing-Generic/Prelicensure/B.S. ([UCLA](#)); Nursing-RN-BS/Postlicensure/B.S. ([UCLA](#)). Only those campuses with whom we have articulation agreements are presented herein.

IMPORTANT – PLEASE READ!

This handout provides a listing of courses students must complete to be eligible to apply to any of the nursing programs listed. This handout does NOT include specific admissions requirements that students must *also* meet to be eligible to apply to a Nursing Program. Students are strongly advised to review the website of the respective colleges to obtain this information. The web address of each college found within this handout has been added below:
