New Business:

Lively discussion re: Russell Williams case and notifications of staff and faculty on the behaviors and a need to know situation involving a student. All advised that the matter ultimately rested with President Stanback Stroud with consultation from County Counsel and District personnel.

Another discussion, actually begun during call for approval of minutes, centered on the lack of notice of the meeting and sparse attendance. It was requested that reminders via email be sent out as well as an avenue for agenda items. Rob Dean to speak with John Wells on these issues since the website has this information.

Adjournment: 1357hrs.
