

Learning Communities

What is a Learning Community?

Learning Communities are two or more classes, often in different departments, designed to be taken together by the same group of students in each class of the Learning Community. Learning Communities are designed to connect students to each other, to their teachers, to the college, and to student learning. The classes have a common theme and coordinate their assignments. This allows students to work on themes from more than one perspective.

In Learning Communities, faculty members assist learning and innovation as everyone works together to create community in a positive learning environment. Students participate in groups to share ideas and help each other learn.

There is a greater sense of involvement with students and professors.

ASTEP: THE AFRICAN AMERICAN EXPERIENCE

The African American Experience learning community allows you to examine the complex issues of African descended peoples, including African American culture, tradition, identity, history and contemporary life through lectures, discussions, films, guest speakers and presentations. The theme for the ASTEP learning community for 2009-2010 is Ujima, which means collective work and responsibility. We will build and maintain our community together and make our brother's and sister's problems our problems and solve them together. For more information about the African American Learning Community, call Patricia Deamer at (650) 738-4217 or email deamer@smccd.edu.
