AND CLUB COUNCIL**

**SOCC Minutes  
Wednesday, November 5th, 2014  
2:00 p.m. Skyline College  
Building 6, Room 6202**

The public is invited and encouraged to attend and participate in all meetings of the Skyline Organization and Club Council. Meetings are open to the public and accessible to those with disabilities. The public may address the council on non-agenda items during the 'Announcements & Hearing from the Public' item on the Agenda; however, the council cannot take any action on these items until they are posted on the Agenda. Requests for agenda items must be submitted to The Center for Student Life and Leadership Development (Room 6-212) **FOUR** weeks prior to the regularly scheduled meeting. Members of the public, as well as club members who are not the designated club representative, may participate in discussion only when recognized by the chair. Discussion times are limited to ten (10) minutes per topic; unless a motion is made to extend debate and approved by two-thirds (2/3) majority of clubs in attendance.

Bingo Night (Filipino Student Union)

Date of the Event: January 28, 2014

Time of the Event: 4:00pm-6:00pm

Location: Building 6, Room 203

Supplies Needed	Cost
Food	\$40
Prizes	\$60
<b>Total Amount</b>	<b>\$100</b>
<b>SOCC Request</b>	<b>\$100</b>

Hello SOCC members,

FSU is hosting a Bingo Night on January 28, 2014. The event is going to be held from 4-6 pm and it is held in Building 6, Room 203. We are asking for \$100 dollars as the funds will cover provided food or light refreshments during the event and prizes if the person wins a bingo game. There will be at least 10 Rounds and 3 of the 10 rounds will feature a "Kaba" Basket or a basket that will feature necessities for Finals and Kababayan gear in the basket. The cards will be one dollar each on and the card only lasts for the specific round. The cards are also infinite so a person has a chance to likely win if the person has a lot of cards. there will be a volunteer or one of our Executive members running the cash box and the handling of the funds will go through our Treasurer. This event is to help fundraise for the spring where PCN (or Pilipino Cultural Night) is able to produce their production with the necessary supplies needed in order to make the show happen. However, this event also helps introduce and welcome new and returning students to KLC and Skyline for Spring Semester. Again please help out FSU with this event as the event will be beneficial for FSU funding terms.

Sincerely,

Neil Bryan Castro

FSU President 2014-2015

# THE FIRST SKYLINE COLLEGE EXPLORATORIUM

## Skyline Women Engineering (SWE)

Skyline College Quad 12/4/14, 10:30-2:30

### **A Quick Summary--**

SWE will be hosting the very first Skyline Exploratorium at Skyline College on December 4th, 2014. This event will help stimulate interest in science, engineering, and research here on campus. We are inviting all MESA and STEM clubs to participate, promote their clubs and reach out to students who are not yet benefitting from being in a club. Right between midterm and final exam this is sure to be a needed fun event which will also show our college spirit!

### **What?**

We will be exhibiting a series of different science demonstrations and experiments in an Exploratorium setting on the Quad. And because we would like to create a community friendly environment during this event, we are incorporating several interactive activities throughout the day in which the student body can take part. This grew from our observation that at Skylloween people of all ages were very interested in learning first hand about physics with the few demos we brought together.

### **Where? Why?**

We are holding this event in the high traffic area of the Quad in order to invite and encourage students from all major to explore science and the laws of physics with fascinating hand-on demonstrations. Who knows, every year, there are several people we know who switch to engineering which has lots of better paying jobs! This is an opportunity to maybe discover the joy of science and make contacts.

### **How far along are we in the planning process?**

We already met several times to get help from advisor Prof Koskelo in selecting some of the fascinating physics set-ups from the lab to demonstrate to people at the event and we are working on setting up more.

### **A collaboration involving the entire Skyline College community and beyond:**

SWE is proud to be inclusive and would like to invite clubs to collaborate or participate. We realize that many students are not yet taking advantage of clubs so we also encourage them to bring their science projects for display. Clubs and individuals can just contact us through our website.

### **Beyond Skyline College:**

Other potential participants: scientists from industry and from NASA, local SWE sections, and Skyline College alumni.

### **Research workshop & other benefits to the students:**

Science and Research Club is hosting a Research Workshop where students can walk-up and chat about how to get a project started or how to improve on a current project. This will be staffed by experienced peers who are students just like you but had experience doing a research project. Students will be encouraged to use the upcoming break to get their projects going for submission to the Skyline Research Symposium in Spring 2015. We invite students from the social sciences as well as other fields to undertake research using the scientific method. Research skills and experience are important for jobs and transfer.

### What next?

Lots of preparation has been done and our contract was approved yesterday to use the Quad. So we will now publicize the event. We already have SHPE on board. We will reach out to other partners. Just contact us. We may reach out to Early Childhood (Prof Fredricks idea), Puentes, and Becalos programs. We may invite the local middle school - one science class.

So, for us to be able to do this, (just before final exams) we will need to work over the Thanksgivings break. We are humbly requesting \$500 to help with the expenses listed. We will make up the rest with personal contribution from SWE members since we currently are short on time to do fundraising.

Other participants (in the work): scientists from industry and from NASA. SWE from SF State.

Thank you!

DESCRIPTION	COST
Promotional materials to advertise the event (posters, flyers)	\$80
SWE Banner for this and other events	\$145
"Skyline College Exploratorium: discover science and engineering" banner	\$100
Other informational materials explaining the scientific demos	\$50
Business/contact cards	\$40
SWE Informational Brochures	\$75
Batteries and other materials for the event	\$180
Prizes for scientific projects	\$100
Food and drinks for volunteers (we will need lots of volunteers- at least 6 per shift and need a bit of incentive)	
Note: the event is 7 hours including set up and break down. This equal 42 volunteer hours. We would like to provide lunch for the shift surrounding lunch hours = 15 lunches at the cost of \$7 each. We will need this incentive given that this is near final exam time for these STEM majors.	\$105
