	<h1>Assessing the Citizenship ISLO Spring 2017</h1> <p>Source: Office of Planning, Research and Institutional Effectiveness</p>	
---	---	---

Students will be able to use knowledge acquired from their experiences at this college to be ethically responsible, culturally proficient citizens, informed and involved in civic affairs locally, nationally, and globally.

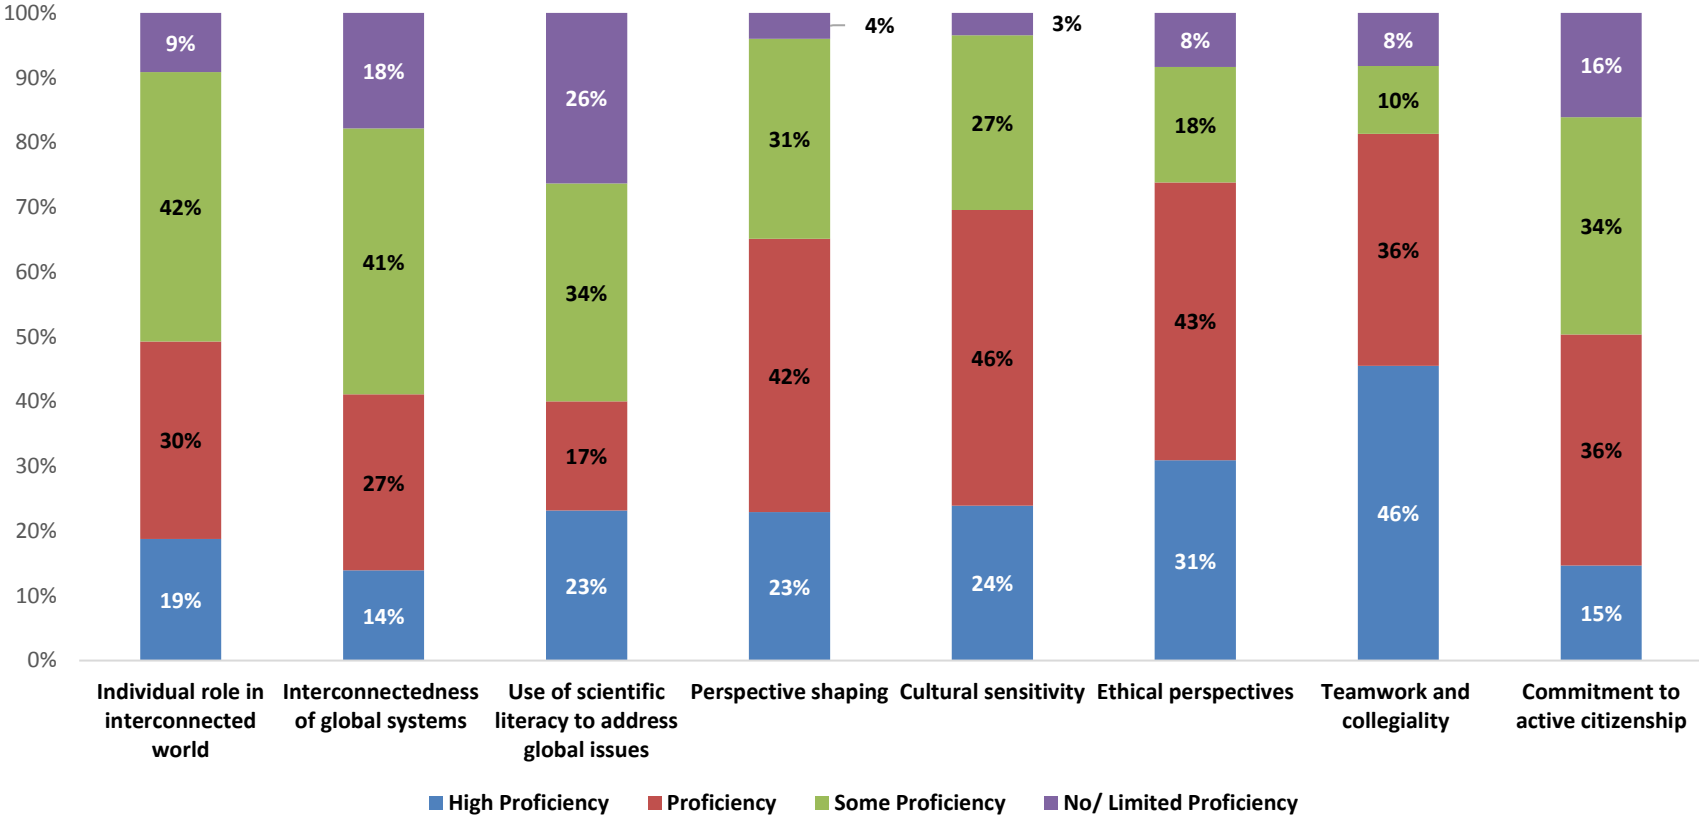

Citizenship includes the ability to:

- demonstrate an understanding of their individual role in an interconnected world about a range of global issues.
- demonstrate an understanding of how global, national and local organizations, ideas, and issues are interconnected (e.g., social, cultural, economic, political, and environmental).
- demonstrate scientific literacy concerning a range of global issues.
- demonstrate awareness and sensitivity about how their perspectives are shaped by their experiences and cultural values.
- articulate similarities and contrasts among cultures, demonstrating knowledge of and sensitivity to various cultural values and issues.
- recognize and apply ethical perspectives.
- facilitate a positive, supportive group environment through demonstrated collegiality and leadership.
- demonstrate commitment to active citizenship.

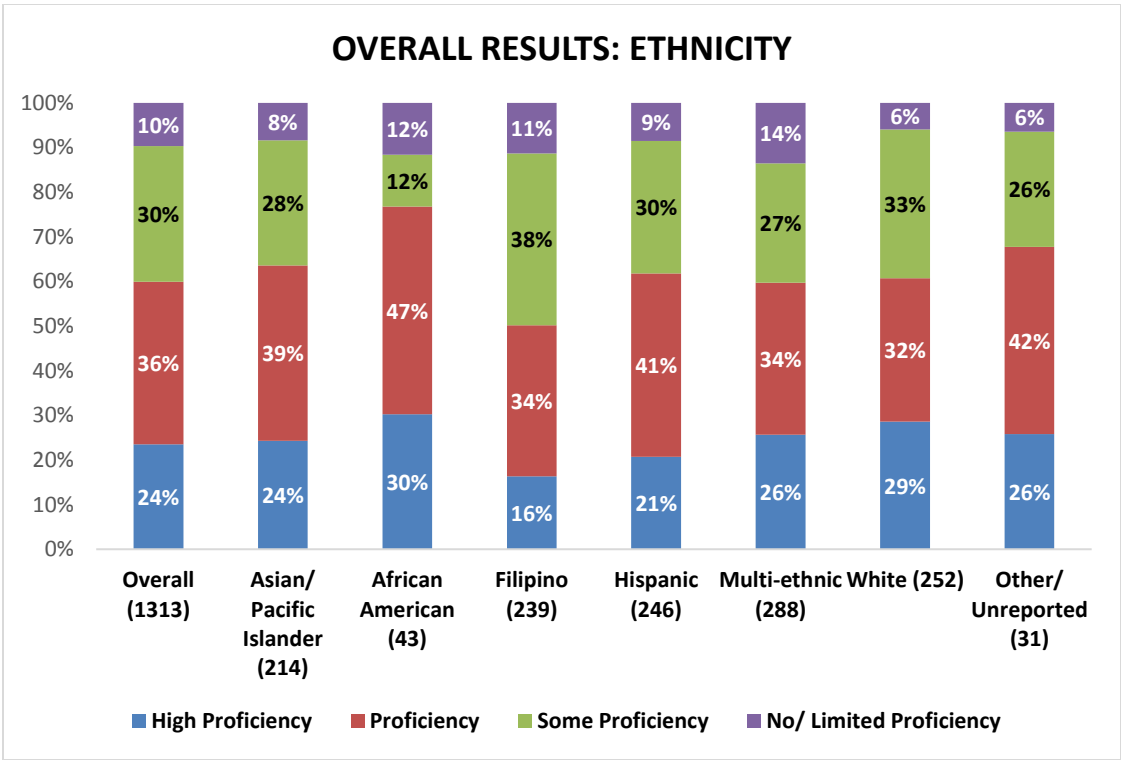

## Assessment Methodology

- Eighteen faculty members assessed 420 students' work in research-oriented projects in Biology (81), Communication Studies (83), Early Childhood Education (8), Economics (16), English for Speakers of Other Languages (41), Geology (15), History (42), Literature (19), Philosophy (49), Sociology (38), and Spanish (28).
- In addition, over 900 students took the Community College Survey of Student Engagement (CCCSE). Custom questions were created to assess three Citizenship ISLO descriptors on cultural sensitivity, global awareness, and active citizenship. The latter included five out of the eight questions since the past assessment of the Citizenship ISLO revealed that students had few opportunities to exercise active citizenship as a co-curricular component of their classroom experiences.
- The PRIE office aggregated results for discussion.

**Spring 2016 Community College Survey of Student Engagement  
Custom Questions Pertaining to the Citizenship ISLO**

**CITIZENSHIP ISLO: CULTURAL SENSITIVITY**

- 1) I regularly participate in at least one campus activity from a culture other than my own.

A=Strongly agree    B=Agree    C=Disagree    D=Strongly disagree

**CITIZENSHIP ISLO: GLOBAL AWARENESS**

- 2) Through my classes, I've been able to explore social, economic and/or political issues which affect global communities.
- 3) My college experience has helped me gain an understanding of global interdependence (i.e., mutual dependence such as that resulting from trade pacts and climate change).

**CITIZENSHIP ISLO: ACTIVE CITIZENSHIP**

- 4) The environment at this college is one in which students are encouraged to participate in current social and political debates and events.
- 5) I regularly engage in sound environmental practices (e.g., recycling, taking mass transit/ carpooling, etc.).
- 6) I've changed some of my own habits and behaviors in response to ethical, social, and/or environmental issues that I learned about in my classes.
- 7) I've taken action with others to address ethical, social, and/or environmental issues that I learned about in my classes.
- 8) About how many hours do you spend in a typical week participating in unpaid activities within any community setting such as churches or temples, community centers or organizations, hospitals or schools (not including your college)?

A=None    B=1- 5 hours    C=6-10 hours    D=11-20 hours    E=More than 20 hours per week

## Questions to Consider

- 1) In what areas did students perform well? For instance, consider which criteria have the highest number of “high proficiency” and “proficiency” scores. Conversely, in what areas did students struggle?
- 2) Which, if any, students appear to be disproportionately impacted?
- 3) How did students’ actual performance in cultural sensitivity, global awareness, and active citizenship compare to their self-perceptions, as indicated in the survey?
- 4) For those who assessed this ISLO with your own course, did your students’ performance match your expectations? How does their performance compare to the overall results?
- 5) Given your responses to #1-4, with what did students struggle? What actions do you plan to take, if any? Among questions to consider are the following: what about the assignment can be clarified and/or otherwise improved upon? what class and/or co-curricular activities can be implemented and/or improved upon to help students perform better?
- 6) Given your responses to #1-4, speculate as to why students did well and/or struggled. Consider questions such as the following: what prior knowledge did you tap into that students possess that was relevant to completing the assignment? how does the assignment effectively enable students to apply the knowledge they acquire from the class and the text(s)? what class and/or co-curricular activities may have helped to do well on the the assignment?
